Wonju Pond

Latitude: 37.08917067 Longitude: -77.87611659

Wonju Pond is a 2.5 acre impoundment located in area 14. This impoundment is easily accessible and supports a multi-species fishery with potential for solid catch rates of sunfish, largemouth bass, and channel catfish. Historically, Wonju Pond has been managed as a “put and take” channel catfish pond with a two fish per day limit; however, the fishery does support solid bluegill and largemouth bass populations as well. It has an average water depth of 5ft. with the deepest potential reaching 8ft. Wonju Pond has excellent bank fishing access and one boat launch point.
